

FOR IMMEDIATE RELEASE

**Drew Diaz named President of Bone Solutions Inc. (BSI)**

Colleyville, TX , March 4, 2014

Bone Solutions Inc. (BSI) today named Drew Diaz, a twenty seven year professional in the health care industry, as the new President of BSI.

Mr. Diaz has worked in the health care field for over twenty seven years with the last five as the cofounder and Chief Executive Officer of Heart Test Laboratories Inc., a US based cardiology device company. Prior to Heart Test Laboratories, Mr. Diaz was the Senior Vice President of Global Sales for Criticare Systems, Inc., a US manufacturer of anesthesia, cardiac and patient monitoring equipment. Mr. Diaz and has held positions with various Fortune 500 companies, including IBM, Pfizer, and DeRoyal Industries throughout his career. Currently Mr. Diaz is serving as the President of Bone Solutions Inc., a biologics orthopedic company which is poised to launch there innovative adhesive cement into the global market this year.

Mr. Diaz has worked and lived in four different countries during his life and career, including Germany, Spain, Mexico and the United States. Mr. Diaz has experience and knowledge of domestic and international medical device management, in addition to a deep understanding of development and strategic planning of medical exports.

His knowledge in opening new markets and driving revenue via distribution networks and direct organizations in a global economy has been critical in the growth of these companies. Well versed in international trade and management, Mr. Diaz has managed offices in Brazil, China, Germany, India, and the United States. As the Managing Director and President of Medical Logistics GmbH, a medical device company in Bad Homburg Germany, Mr. Diaz was responsible for the administration, engineering, technical support and all sales and marketing. Mr. Diaz is a board member of three medical companies and organizations in the US. He is a graduate of Texas A&M University and has attended Harvard University Business School Executive Training.

“We are extremely proud to announce a President of Drew Diaz' caliber and expertise” said Tom Lally, Chairman and CEO of Bone Solutions, Inc. “I look forward to working in hand with Drew to continue to elevate BSI's national profile and provide orthopedic surgeons a means to improve clinical outcomes in a number of complex procedures, while lowering costs.

### **About Bone Solutions, Inc**

Bone Solutions Inc. ('BSI') ([www.bonesolutionsinc.com](http://www.bonesolutionsinc.com)) intends to establish its magnesium based platform as the 'one stop bone, tendon and ligament injectable, biodegradable adhesive technology' for surgeries at hospitals, clinics and other private surgical centers within the orthopedic industry.

The Company believes it is revolutionizing a new solution for orthopedic surgeons for human uses with a magnesium based platform that may attach for the first time in orthopedic medical history bone to bone, as well as ligaments and tendons to bone.
